Aaron Scott Design creates one-of-a-kind as well as commissioned works of functional design including furniture, lighting and architectural installations. Rooted in art and disciplined by engineering, works by Aaron Scott are hand-crafted with mathematical rigor, operating in the interstices of art and design. Informed by his background in conceptual art and filmmaking, his work explores the relationship between objects and perception, movement and stasis, inside and outside. Aaron Scott Design is located in the DUMBO neighborhood of Brooklyn, New York.
